The Instrument that does so much, so well

If you do any work with ferrous metals... in the shipyard, aerospace, steel mill, foundry, weldment or vehicle overhaul... you need the performance advantage of the B-100 Contour Probe.

Wide versatility

Mechanically, the B-100 Probe will conform to practically any surface configuration. This instrument produces strong, constant AC fields.

One-Person Package

The B-100 Contour Probe is a complete magnetic package. One person takes it to work and easily performs a thorough and reliable inspection in a fraction of the time consumed by large bulky equipment.

Precise Area Inspection

Powerful magnetic fields are concentrated and applied to the precise area to be inspected. The construction of the new B-100 Contour Probe allows for the replacement of all internal components.
